

Cream BudsTM

Natural Cream Concentrate

Here's a rich idea... Cream BudsTM

Healthy and completely natural, Cream BudsTM is a family of natural dairy concentrates from Butter Buds Food Ingredients with fresh, cultured, or sour cream profiles. Cream BudsTM works at low application levels to provide true cream flavor, along with richness and mouthfeel, while masking off-flavors.

Cream BudsTM has 80 times the flavor strength of fresh cream. All that strength means low usage levels and negligible fat contribution. Cream BudsTM is useful anywhere the richness and flavor of natural dairy cream is desired.

You'll love its functionality (and its cost savings) in bakery, confections, soups, sauces, dressings, beverages, whipped toppings, desserts, ice cream and hundreds of other applications.

- ✦ Rich Natural Flavor
- ✦ Improves Mouthfeel
- ✦ Negligible Fat Contribution
- ✦ Less Expensive than Standard Dairy Products

Cream BudsTM—Because Quality Still Matters.
