

Olive Oil BudsTM

Natural Olive Oil Concentrate

Finally, the authentic flavor of extra-virgin olive oil in an easy-to-use form.

If you thought that putting the distinctive flavor of extra virgin olive oil in your creations was impossible, think again. Olive Oil Buds can provide that rich, natural taste without causing headaches with production and packaging. How? We start with all natural, extra virgin olive oil. Then we use our proprietary process to unlock its full, potent flavor and concentrate it into a convenient powder. The result is an ingredient with up to 8 times the flavor strength of olive oil.

This means a little goes a long way. Usage levels are typically less than 1%, so fat contribution is negligible, yet product flavor is enhanced.

Use Olive Oil Buds in dishes from the exotic to the everyday – hummus, couscous, marinades, seasonings, salad dressings, sauces, paella, pasta and so much more. Olive Oil Buds is the perfect way to give your creations that little extra something.

- ✘ Authentic Rich Flavor
- ✘ Versatile
- ✘ Saves Costs

Olive Oil BudsTM—Because Quality Still Matters.
